# Recreate Local Roaming Profile

## Contents

# 1. Info

Version 0.1, 13/11/2019

# 2. Rename user folder

Log on as other user.

Go to **C:\Users\** and rename **<user_account_name>** folder to **<user_account_name>.old**

# 3. Clean registry

Open Regedit as administrator.

Create backup of the registries.

Go to

**HKEY_LOCAL_MACHINE\SOFTWARE\Microsoft\Windows NT\CurrentVersion\ProfileList**

Find the user and delete the folder registry key.

# 4. Recreate the profile on the computer

Log on as the same user that we removed to recreate it again.
